**We Do Not Accept:** We are not in network with Marketplace or Medicaid Managed Care plans such as: Ambetter, Simply Healthcare, Molina, Prestige, or Sunshine Health.

**Weight Loss Medication Coverage Questionnaire:**

When calling the number on the back of your insurance card, ask the representative:

1. Does my insurance plan cover medical treatment for obesity or weight management?
2. Are weight loss medications covered under my pharmacy benefit?
3. Which medications are covered on my formulary?  
Examples include:
  - Wegovy
  - Zepbound
4. Do I need to try other medications first (step therapy)?
5. Do these medications require prior authorization from my provider?
6. Are there BMI or medical condition requirements to qualify for coverage?
7. What will my copay or coinsurance be for these medications?

Patients are responsible for verifying their insurance coverage for weight loss medications. If a prior authorization is submitted and the patient has not confirmed coverage with their insurance company, a **\$25 prior authorization processing fee** may be charged to cover administrative time.
